

- Preferred Terrestrial Route
- Preferred Underwater Route
- Horizontal Directional Drill (HDD) Segment
- Proposed HDD Entry/Exit Location
- Municipal Boundary

Note: A horizontal directional drill (HDD) is proposed at the Kingsland Bay landfill location to avoid any direct impact to the shoreline and lakebed along the segment shown. The cable is proposed to be installed 4-feet below the present bottom in water depths shallower than 150-feet.

## Vermont Green Line Project

*Proposed Land & Underwater Cable Route*
